# Does the Telecommunications Services sector have similar profits levels for Sales, General and Admin. than IT sector in year 1 ?

## Sales, General and Admin. for Telecommunications Services for Year 1

## Sales, General and Admin. for IT for Year 1

Here are the box & whisker for the annual Sales, General and Admin. profits for IT & Telecommunications Services sector companies reported for all companies in year 1 .

The mean for Telecommunications Services is about \$17.5 billion and for IT is above 1.5 billion .

However , the median for Telecommunications Services is \$3 million and for IT is \$1 million that mean the median in Telecommunications Services higher than IT . The standard deviation for Telecommunications Services \$20 billion and for IT is \$4 billion . That mean the Sales, General and Admin. For Telecommunications Services is higher

# Thank You
